11th International Conference

On

INNOVATIONS & IMPLEMENTATIONS TO RETARD GLOBAL WARMING

About Conference:

IME College takes immense pleasure to extend our warm welcome to invite all the participants from all over the world to attend **11th International Conference on “Innovations & Implementations to Retard Global Warming”, on December 15-16, 2018**, which will entail lively debates; prompt keynote presentations, Oral talks, Presentations, and networking opportunities around a core of plenary and concurrent sessions based on essential topics in the Global warming sector

Global Warming 2018 conference is organizing with the theme of **“Innovations & Implementations to Retard Global Warming”**.

Gathering is a discussion to investigate issues of common worry and also trade learning, share proof and thoughts, and create arrangements. The gathering is about advancing worldwide medical problems and propelled advances used to control and direct the contamination. This meeting incorporates different sorts of contaminations, green house impacts on the earth, contamination chance evaluation, propelled control techniques.

The Conference unites specialists, analysts, researchers and understudies from all territories of Basic science, Chemical building, Earth and planetary sciences, Ecology, Environmental science, Environmental toxicology, Bioremediation and Public wellbeing, Occupational and mechanical security.

One of the real patterns in the market is the advancement of as good as ever air contamination control frameworks/gear with upgraded unwavering quality and lessened power utilization; for example, advancement of a streamlined wet process that has higher desulfurization productivity and enhanced limestone infusion. quick changes in the worldwide environment

because of fossil fuel burning and mechanical exercises anticipated to change worldwide atmosphere.

As indicated by the report, expanded interest for power is one of the central point driving the market. Coal-based power plants discharge an expansive volume of hurtful gasses into the earth. This has made the need to introduce and receive worldwide contamination control gear in plants. The experts conjecture the Global Pollution market to develop at a CAGR of 6.47% over the period 2014-2019.

Investigation of the Global Pollution Control Equipment in Energy and Power Market finds that the market earned incomes of \$7.27 billion in 2010 and appraisals this to reach \$9.69 billion in 2017.

Sub-Themes

- Ozone depletion
- Climate change
- Greenhouse effect
- Carbon cycle
- NASA's Earth observing system
- Atmospheric chemistry Ecosystem
- Pollution
 - Waste Water pollution
 - Soil pollution
 - Waste management & treatment
 - Radiation pollution
- Industrial sector
 - Fossil fuels and energy
 - Thermal pollution
- Deforestation
- Legal education for conservation of environment
 - Digital technology VS conventional approach of life style
 - Legal safeguards from global warming
 - Scientific and technological tools to safeguard the environment
 - Protection laws related to environment
 - Reforms in legal laws related to environment
 - Impact of comfort zone on global warming

Objectives

To provide a common platform for researchers, academicians and industry professionals to exchange their experience in the relevant area.

Keynote address and invited talks on the latest emerging issues.

To explore the technological advancement to retard Global Warming.

To discuss emerging paradigm and practices in business management and technology.

Perspective Authors and Delegates

Academicians

Research Scholars

Practitioners in Business and Non-profit Organizations

Administrators

Management & IT Students

About IME

The Institute of Management Education (IME) was founded in 1995 by a group of leading academicians and corporate executives in Northern India.

Over the past 23 years, it got established itself as one of the premier business Schools of the country, which focuses on quality and value based education, research and corporate leadership. With the mission to serve society by promoting excellence in education, the institute has diversified in the areas of Information Technology and Law and today, the Institute is known for academic excellence, research orientation, industry interaction and social responsibility. It has strong team of dedicated faculty, brilliant students, state of the art infrastructure, strategic location and a consistent good placement record.

How to Reach?

Situated in the National Capital Region. IME is located strategically on G.T. Road at Sahibabad (Ghaziabad). The campus is about 40 kilometers from Indira Gandhi International Airport, 15 Kilometers from Connaught Place, New Delhi; one kilometer from Sahibabad Railway Station and 3 kilometers from Dilshad Garden Metro Station, Delhi.

Organizing Committee

Ms Gagandeep Kaur

Ms Leena Sharma

Ms Amita Chaudhary

Mr Arun Kumar Takuli
